

PROPOSED COMPOUND WALL & ACCESS LAYOUT

2D SITE PLAN — OFFICE MOG & HOUSE MOG (from dimensioned hand-marked reference sketch)

GATE / DOOR SCHEDULE			
DESIGNATION	LOCATION	WIDTH	SOURCE
FRONT MAIN GATE	Bottom edge, 30.5 m run (station approx.)	TBD	Blue mark + bubble label
BACK GATE	Top edge, at 14 m / 18 m break	TBD	Blue mark + bubble label
HOUSE BACK DOOR AND GATE	Right edge, at 30.4 m / 4 m break	TBD	Blue mark + bubble label (combined function)
Only the three access points clearly labelled and marked in blue on the reference are shown. No "Emergency Door" is labelled on this sketch — none has been added. If additional unlabeled blue marks exist on the original, please confirm their location and function; none has been assumed here.			

GENERAL NOTES
1. Proposed perimeter wall thickness: 0.40 m.
2. Proposed perimeter wall height: 2.80 m.
3. Layout geometry follows the supplied reference sketch; labelled dimensions (14/18/30.4/4/30.5 m) are drawn to true scale.
4. Existing buildings are shown for planning/layout reference only.
5. Dimensions not explicitly confirmed on the sketch are marked TBD.
6. Gate and door widths must be field verified before construction.
7. Building dimensions and setbacks must be field verified.
8. Final construction setting-out must be based on a site survey.
9. This drawing must not be used for construction without field verification.
10. True north has not been established from the reference — see North Arrow note.
11. Left boundary edge length is not derivable from the sketch and is marked TBD; drawn indicatively only.

PROPOSED COMPOUND WALL & ACCESS LAYOUT				
2D SITE PLAN — OFFICE MOG & HOUSE MOG (dimensioned reference)				
Wall thickness: 0.40 m		Status: CONCEPT / FOR REVIEW	Date: 2026-08-28	Format: SVG (vector) / DXF / PDF / PNG This is a planning/layout drawing based on a marked-up sketch, not a survey. Do not use for construction setting-out without a field survey. See General Notes and TBD items.
Wall height: 2.80 m		Basis: Hand-marked dimensioned sketch	Drawing No.: SP-002	
Perimeter (labelled): 32 + 34.4 + 30.5 m + left edge TBD		North: TO BE CONFIRMED	Revision: A — Concept	
Scale: Labelled runs to true scale; TBD items schematic			Drawn: Claude (AI-assisted)
